PLEDGE OF ALLEGIANCE TO THE FLAG-Mayor Lindsey.

CALL TO THE PUBLIC- Mr. William Holloway addressed the Mayor and Council regarding the generic request for the fees to be waived for the Community Center. The idea of waiving the fees is not specific on tonight's agenda item #9. Over the past 4-months it seems the Mayor and Council have waived fees and in some cases the waiving of fees is for a good purpose and the activity that is going on has a direct impact on the City of Willcox. People coming in, staying in hotels and spending money for meals and that is valid. Also resources we are using as a City that we are not getting reimbursed for including wear and tear on facilities, including payment of our staff who in fact do work when some of these activities are going on. The City continues to pay them and not reimbursed by people that are using them. Wants the Mayor and Council to look closing at the idea of fees and waiving of fees or insists the people cover the City's costs for certain things.

DECLARATION ON CONFLICT OF INTEREST- Councilman Donahue declared Conflict of Interest on item #10 regarding the request to waive fees for Northern Cochise Community Hospital. There was no further response from the Mayor and Council members or Staff.

ADOPTION OF THE AGENDA

MOTION: Councilman Johnson moved to adopt the agenda as presented.

SECONDED: Councilwoman Cronberg seconded the motion. **CARRIED.**

PRESENTATION BY DR. MARK FREDRICKSON, UNIVERSITY OF ARIZONA, SCHOOL OF ARCHITECTURE, ON A MASTER PLAN IMPLEMENTATION

Dr. Mark Fredrickson, Professor of Data at the University of Arizona, College of Architecture, reported on a Master Plan Implementation that they do throughout Arizona, Central America, Latin America and Middle East. Doing Master Planning in small revitalization throughout the State and have done 10-12 small towns including Benson, Show Low, Springerville to name a few. Four (4) of those won Master Plan of the Year Awards. Dr. Fredrickson handed out sample Master Plans and stated that Springerville had lots of historic structures. Other handouts were projects they did in Show Low Civic Center, Street Restoration & Urban Design, and Small Town Revitalization for Pinetop in downtown, town square and new developments. Some end projects expected to see if did work here in Willcox. Raised on ranch in Sonoita and understands small town life, and the charm of it. Students are graduates they work with and he has found graduates are graduating way too green and they need to be out working on the field with real projects and budgets. His company has grown unexpectedly and this summer doing work in Jerusalem and working with United Nations on that project.

Dr. Fredrickson has had his eye on Willcox for a long time and found it is similar to Springerville downtown, main street, railroad and it is very interesting. They come in to a small town, send out teams to do intensive research, photograph, interview business owners, interview key decision persons including the Mayor and Council, survey's, interview High School students, and case study analysis done in other towns projects and build off. They look at present studies done and build on good ideas. Study literature

review and theory and from that get pieces of ideas or design implications. A presentation on option range concepts with Mayor and Council and solicit opinion on different ideas. In Show Low the Mayor and Council had different stakeholders invited to small meetings, interview and part of planning process. Usually they do that. Show Low recognized that development was coming and trying to prepare for that instead of becoming victims. Willcox could have similar expectations as Show Low and it is better to be ready, Master Plan, strategies and so on prior to developers coming in instead of doing things hodge-podge. If the Mayor and Council wants more items to review he has a website of the Tejido Group and all projects are in this web site. These students are amazing, winning awards against professional firms and very proud of them.

Vice Mayor Schultz asked how long to complete project and Dr. Frederickson replied usually about 15 weeks and first 3-4 weeks is analysis. Then next 3-4 weeks is concept generation with public presentation and go back one more synthesis, another presentation and then execute document. The Vice Mayor stated they work with module versus phases. Dr. Frederickson said they have had good concept working with modules for 20 years with phase project do this 1st year and this 2nd year and so on. With phase projects something is going to go wrong, interest, grants or grant does not come in. They develop projects small i.e. main street, town square, housing, bike trails, and these are little packages which sit on the shelf with specific instructions. Council and townspeople pull one off the shelf and, therefore, have a much more flexible strategy.

Mayor Lindsey asked what the cost would be for putting together a plan. Dr. Frederickson said one thing promise is a good deal. A lot will be near \$100,000 range. Pinetop done in the summer was about \$41,000 so there is a range. During year could be done in studio classes and in the summer the price increases. Money used is for scholarships etc. Project in Mexico was about \$3,000 and therefore lots of flexibility.

Councilman Johnson asked if modular for entire City i.e. Rex Allen Drive how would they put that together to pull out in the future. Dr. Frederickson explained he is an architect and landscape architect. That is revitalization tool in small towns all kinds of stuff going on. Landscape architecture is very inexpensive to get the ball rolling and needs to do more research for Willcox. Look at open space and possibilities for connecting one mode of development with linear parks. Councilman Johnson asked if in his experience were grants able to be used. Dr. Frederickson replied that the book enables you to go out for grants, state and federal funding and in the application the City states we have a vision for the future here it is and now help us. Plays well with State and Federal agencies because have developed a sound master plan and everyone has signed off on it. Clarkdale received two (2) \$800,000 grants and Show Low Main Street received over \$1M in grants. Good grant writing skills is beneficial. Also document used to entice developers with incentives or disincentives and City more in control.

Councilman Norris asked when walked into other towns and then walking to Willcox what is our potential. Dr. Frederickson said this is a sweet little place and does want to keep it authentic. Still have charming little town, open spaces and people living and talking and interacting in a great little town. The City has this neat little park and train coming through town.

Councilman Johnson asked if he could get back to staff with an estimated cost. Dr. Frederickson asked if the City wants an estimate during semester or summer. Councilman Johnson said probably during semester would be less expensive especially while doing budget right now. Dr. Frederickson asked the Mayor and Council to write up a drawing what areas for them to look at or the entire town to give him little idea of scope to do. Probably won't take project unless see revitalization on number of levels and dimensions. Look to get businesses growing, social activities to be able to interact and for children to be proud. Think of measure of its towns health, how many come back to raise children, jobs, good education, and another is way define beautiful town it is easy to put geranium in pots and wrought iron but what is beautiful is where crime is low, friends, good families, all infrastructure streets is good and that is how they define beautiful. Councilman Johnson stated the quality of life. Dr. Frederickson was thanked by the Mayor and Council members on his presentation.

**THE MINUTES OF THE REGULAR MEETING OF THE MAYOR AND
CITY COUNCIL OF THE CITY OF WILLCOX, COCHISE COUNTY, AZ
HELD ON THIS 1ST DAY OF MARCH 2010**

DISCUSSION/DECISION REGARDING THE REQUEST FROM MELINDA ROETHLE FOR THE FEES TO BE WAIVED FOR THE COMMUNITY CENTER (Item was tabled on February 15, 2010)

Councilman Johnson stated that the only document received from last time is the letter from (Robert) Sherwood. The Councilman asked if anyone else is here and there was no response from the audience present. Public Services & Works Director Dave Bonner explained the letter is from former Councilman Robert Sherwood. The event is a fund raiser for lady that passed away and proceeds are for her young daughter. Councilman Johnson said he does not think the Council has ever approved an event like this that he can recall. Mayor Lindsey stated they have approved several requests that were close to this and if the Council has ever approved one exactly like this he is not sure. Councilman Johnson said we do for Rex Allen Days, and for fund raisers. Mayor Lindsey said a church and Councilman Johnson said non-profit organization. Mr. Sheats stated if money donated to them they would give it to Salvation Army so that no one church profits. A lady brought flowers and if wanted to make donation to Salvation Army it was collected through her and given to Penney Bell for a total of \$69.00. They did not advertise as a fund raiser which was not the general purpose of it. Councilman Norris said he thinks it is a worthwhile for them and wished someone was here to speak. If approved Councilman Norris said needs stipulations.

MOTION: Councilman Norris moved to approve with stipulation take care of Community Center and leave in same order they found it.

SECONDED: Councilman Donahue seconded the motion. **DISCUSSION:** Councilwoman Cronberg looking at minimal cost to City have to be able to follow up on this. The fundraiser is not going to benefit the community it is for a child and does not have a problem with it. Perhaps lower fee for something and should be a back up and thinks setting dangerous precedent. i.e going to have surgery and can't pay for it and need fundraiser and could I please use the Community Center. Councilwoman Cronberg thinks this is tricky and has sympathy for the family and is worried we are opening the door to other things that might not be so valid and is concerned. Based on earlier comments we need to be mindful how Center is used and how benefits City. It is her understanding that right now the Child is living in Douglas and is not unsympathetic and maybe we can have a few people volunteer to help pay the fee that needs to be paid and worried about precedence. Mayor Lindsey feels we should have minimum to cover our expenses. Councilman Johnson this is one of those areas brought to the table and had work session on and has not moved forward only talked about it. Most of the fundraisers have been done by church or hospital. The fee is \$214.24. Councilwoman Cronberg asked how much is the basic cost to have someone on site and Mr. Bonner replied the charge stated is the fee and things they do they basically put building in order after use. The users are requested to leave the facility the same or better condition than received. They asked to collect their own trash and put in dumpster, we give them bags for garbage and use those and number of those we have to replace. As far as assessing actual cost they have not done for a long time. Councilwoman Cronberg asked how many people we have that is sort of on call for this kind of event. Mr. Bonner stated if they have any problems call facility supervisor and he delegate person. Also have electricity, water, sewer on call if needed. Councilman Klump asked if charge half rate to cover our cost and donating our cost and asked if okay to amend the motion. City Attorney Figueroa replied "yes, you can do that." **AMEND MOTION:** Councilman Klump moved to amend motion they pay half the rate or \$110 which is basically donating for the event. **AMENDMENT SECONDED:** Councilman Johnson seconded the amendment. **VOTE: AMENDMENT- CARRIED. ORIGINAL MOTION: 7-Nays. MOTION DIED.**

DISCUSSION/DECISION REGARDING WAIVER OF BUILDING PERMITS FEES, SEWER CONNECTION FEES, GAS AND WATER METER FEES FOR THE SENIOR CENTER MODULAR BUILDING AT NORTHERN COCHISE COMMUNITY HOSPITAL (NCCH)

MOTION: Councilman Johnson moved to approve the waiver of building permits fees, sewer connection fees, and gas and water meter fees for the Senior Center Modular building at NCCH.

SECONDED: Councilwoman Cronberg seconded the motion. **DISCUSSION:** City Manager McCourt waiving fee and grant attempt to be part of matching cost. Councilman Klump asked if we have lease for this or do we own building. The City Manager explained there is nothing there yet. NCCH purchasing the building and we are to help with grant, environmental and we have anticipated an agreement with City and NCCH for Senior Citizen building for some period of time. Mayor Lindsey asked if we should have agreement beforehand. City Manager McCourt replied he would be happy to start doing an agreement. Councilman Johnson stated to bring back agreement and Mr. McCourt said if that is the Mayor and Council wish. Although he does not think it is necessary at this time unless the Mayor and Council feel more comfortable. City Attorney Figueroa stated they can do it either way; and he recommends having the agreement in place and incorporating all these items in the agreement. If passed and no funding available that will not make a difference. Mr. McCourt stated we do not have approval from grant. Councilwoman Cronberg wants to have our side of things well in place and understood by all parties.

**THE MINUTES OF THE REGULAR MEETING OF THE MAYOR AND
CITY COUNCIL OF THE CITY OF WILLCOX, COCHISE COUNTY, AZ
HELD ON THIS 1ST DAY OF MARCH 2010**

MOTION: Mayor Lindsey moved to table this item and directed staff to prepare agreement.

SECONDED: Councilman Johnson seconded the motion. **VOTE Ayes** –Mayor Lindsey, Vice Mayor Schultz, Council members Johnson, Norris, Cronberg and Klump. **Nays**-none. **CONFLICT OF INTEREST:** Councilman Donahue. **CARRIED 6-0-1.**

DISCUSSION/DECISION REGARDING REQUEST FROM THE CHAMBER OF COMMERCE FOR WAIVER OF FEES OF THE COMMUNITY CENTER FOR THE CITY COUNCIL CANDIDATE FORUM HELD ON FEBRUARY 23, 2010

City Manager McCourt stated we would not have thought of charging them but because becoming more aligned and aware and would have brought it beforehand and there was no favoritism to any Council member everyone was treated equally. City sponsors events all the time and it was too late to have it at previous agenda.

MOTION: Councilman Johnson moved to approve the request from the Chamber of Commerce for waiver of fees of the Community Center for the City Council Candidate Forum as seen on Channel One and held on February 23, 2010.

SECONDED: Councilman Klump seconded the motion. **CARRIED.**

DISCUSSION/DIRECTION TO STAFF REGARDING SECTION 303 OF THE EMPLOYEE HANDBOOK SPECIFICALLY WORKING PRIOR TO OR AFTER A HOLIDAY

Councilman Johnson has said it once before and will say it again he thinks the handbook was written as intended and keep as it is. City Manager McCourt handbook is clear on this point. This issue came up as part of discussion already dealt with and staff unclear what direction the Council wanted to move. If feel comfortable as written the matter is settled. If wish to look for option will prepare. Mayor Lindsey thought directed staff to bring this back as form as resolution as discussed at a previous meeting and not sure why they would be asking staff to bring it back to them. City Manager McCourt thought bring first question back to Mayor and Council. It was not clear the Council direction on this questions that the individual have to physically work on the day before Holiday or day after Holiday in order to get paid. Frequently employee had to be on approved leave status on the day before or day after. It seems in his mind it is mixed feelings. Mayor Lindsey said on direction they can not vote and he gave direction to bring it back on form of something that they could vote on and still thinks we need to do that. Councilwoman Cronberg still thinks need clarified language so that it does give City Manager flexibility to make sure people are in place to provide services regardless of week end or Holiday. Mayor Lindsey stated he assumes the Council will see that on a future agenda.

DISCUSSION/DECISION REGARDING RESOLUTION NO. 2010-16 RATIFYING, APPROVING AND AUTHORIZING THE SUBMITTAL OF A FUNDING REQUEST TO THE OFFICE OF CONGRESSWOMAN GABRIELLE GIFFORDS FOR FY 2010-2011 FEDERAL APPROPRIATIONS FOR THE PURCHASE OF A QUINT FIRE TRUCK, RATIFYING THE SUBMITTAL BY CITY STAFF AND DECLARING AN EMERGENCY TO EXIST.

Mayor Lindsey asked Chief Weaver to comment on that. Chief explained the grant was prepared and submitted to Giffords 2010-11 and requesting funding for Quint Fire Truck which isn't brand only that it can do 5-things on one truck. If awarded aerial platform capability for elevated stream over several stories high. Current apparatus does not have that and can not get to third floor. Also it is lateral truck, aerial platform, water pumper, water tanker all in one. The Grant request was submitted on the 19th and asking for approval and does not yet know if matching fund requirement. Mayor Lindsey asked if we did receive this grant asked if it would be a cost share. Chief Weaver asked Finance Director to respond. Ms. Graham replied depends on which pool grant funds comes from and if awarded will bring back to Mayor and Council prior to acceptance. Councilman Johnson asked if specific grant applied for and Ms. Graham said it is part of appropriations. Councilman Johnson asked if some requirements should be shoveled ready and Ruth said "it's not ARRA (American Recovery and Reinvestment Act) money." It is same as the \$95,000 for the senior center. Councilman Norris asked the \$998,000 is the total cost for vehicle. Chief replied on affirmative on work up done and range is about \$1M for this truck drawn to meet standards, safety, OSHA and NFDA requirements which OSHA and NFDA require certain things on the truck.

MOTION: Councilman Johnson moved to approve Resolution No. 2010-16, as stated relating to ratifying, approving and authorizing the submittal of funding to the Office of Congresswoman Giffords for FY 2010-2011 Federal Appropriations request to purchase a Quint Fire Truck.

SECONDED: Councilwoman Cronberg seconded the motion. **DISCUSSION:** Councilman Norris said he is for it as long as we do not have not matching funds. **CARRIED.**

City Manager McCourt explained this is in line in with what was approved in the plans for the Library and this is for the solarium on the east side of the building.

MOTION: Councilwoman Cronberg moved to approve Resolution No. 2010-17, as stated relating to the submission of an application to USDA RDA for the purpose to apply for funds under the ARRA to be used for Public Library Improvements.

SECONDED: Councilman Johnson seconded the motion. **DISCUSSION:** Councilman Johnson asked if able to visit matching cost of funds and noticed this is different from last one on Ft. Grant where we had to come up with more money than the actual project cost. City Manager McCourt explained these are application and may find matching requirements and at that time Mayor and Council can decide not to accept the grant. Mayor Lindsey stated this would help further complete the library project and City Manager replied in the affirmative. Councilman Johnson said this covers everything else that’s left and City Manager said “I don’t think so.” **CARRIED.**

The direction to staff is to look at other options and need to continue to encourage a Third Party.

MOTION: Councilman Johnson moved to approve the permission for a Circus in the City limits.

SECONDED: Councilwoman Cronberg seconded the motion. **CARRIED.**

Councilman Norris reported that a situation was raised and he bid on property outside of town and awarded. He and his wife talked about it and thought to resell and then they closed on it last week and decided to go. Requested that his name be removed from voting roll and will no longer be seeking re-election and asked for his name to be removed from election. . Appreciates everything everyone has done and it has been honor to serve the City and citizens these past six (6) years.
